MARITIME MANAGEMENT

Project:
ISO 9001 / 14001

Client:
Internal

Duration:
December 2010 - March 2011

Objective:
ISO 9001 and 14001 Accreditation

Result:
Certificate issued April 2011

Maritime Management, Ireland's leading international maritime services company are both ISO 9001 and ISO 14001 accredited by Germanischer Lloyd. These awards mark **Maritime Management** as a unique provider of ship management services based in Ireland.

The awards follow determined work by **Maritime Management** to demonstrate its commitment to providing environmentally friendly, high quality services and safety management systems to both overseas and Irish ship owners and operators in a highly competitive international market.

Maritime Management has a diverse range of international clients and operates vessels ranging from passenger to general cargo ships and refrigerated cargo ships to specialist vessels, such as the EV NAUTILUS on behalf of the famous undersea explorer, Dr. Robert Ballard. Dr. Ballard is best known for the discovery of the Titanic, PT 109 and the Bismark. In Ireland the company's projects have included the design and construction of the Geological Survey of Ireland's RV Keary, a small high tech survey vessel that was built in South Africa.

ISO 9001

ISO 14001

ISO 9001:2008

Specifies requirements for a quality management system where an organisation can demonstrate its ability to consistently provide products that meet customer and applicable regulatory requirements, and aims to enhance customer satisfaction through the effective application of the system.

ISO 14001:2004

Ensures that organisations minimise how their operations negatively affect the environment (i.e. cause adverse changes to air, water, or land), to comply with applicable laws, regulations, and other environmentally oriented requirements, and how to continually improve in the above.

www.bmml.ie

Maritime Management has a strong technical team including Naval Architects who provide services for Ireland's fishing fleet amongst others and its marine consultancy service has completed various ship conversions and inspections from Chile to South Africa, West Africa, Turkey, Russia, Baltic States as well as closer to home in Europe. Furthermore, due to its packaged services and Irish base, **Maritime Management** provides for the operation of a vessel within the internationally competitive Irish Tonnage Tax Regime.

Maritime Management's success is based upon the fact that it can deliver everything for its clients, from ship procurement to financial arrangements, budgeting, and insurance. Since setting up in 2002, **Maritime Management's** business has grown steadily to its present position as a significant international maritime service provider.
