

## MARITIME MANAGEMENT

**The marine industry presents complex issues that require expert training on the part of ship crews, shore side personnel and marine operators in general.**

**Maritime Management**, with our team of naval architects, master mariners and chief engineers offer ship owners and their insurers with years of experience and an indepth understanding of the marine industry.

For training of your crew and office staff, **Maritime Management** will provide the following training in:

- The carrying out of emergency exercises and drills onboard a ship.
- The use and maintenance of life saving and fire fighting equipment onboard a ship.
- The implementation and upkeep of ISM and ISPS systems both onboard and ashore.
- The carrying out of office emergency exercises in conjunction with the ships.
- Office responses to an accident or security breach on a ship.
- Shore side responses to a pollution incident from a company vessel.

## Training and Audit

**Maritime Management** will carry out audits on behalf of owners and managers of ships. These include:

- The auditing of various procedures onboard from ordering supplies to maintenance procedures.
- The inspection of the condition of the vessel and its ancillary equipment for defects.
- The witnessing of onboard drills and exercises with recommendations given on scenario selection and drill / exercise procedures.
- Liaising with Flag State and Classification Society during external audits.
- Acting as impartial internal auditors for a company as required by Safety Management and Security Management legislation.
- Giving advice and providing assistance on best practices regarding onboard operations including the setting up of ISM and ISPS systems for ships and companies.

**Maritime Management** and its fleet of ships are ISO9001 and ISO14001 accredited which is a first for an Irish Marine Company.

We have extensive experience in quality management and safety operations.

**Maritime Management** is fully insured in all of its product lines.
